- ▶ *North Central Mineral Ventures*
- ▶ *Pace Analytical*
- ▶ *TKDA*
- ▶ *Tiller Corporation*
- ▶ *Twin Metals Minnesota*

The Twin Cities Subsection of the Society for Mining, Metallurgy & Exploration (SME TC) facilitates networking in the greater Twin Cities area, Southern Minnesota, and Western Wisconsin. SME TC also supports career development and encourages factual, objective, ethical, and technically relevant communications regarding the significant role that mining plays in our society.

The benefits of SME TC sponsorship include increasing awareness of responsible mining; supporting the academic development of the next generation of mining industry professionals; strengthening the network among industry, regulators, and service companies; and facilitating the exchange of information for the advancement of the profession.

During our 2018 program year we hosted three lunchtime guest lectures, held our fifth annual scholarship luncheon where we awarded scholarships/prizes to three University of Minnesota-Minneapolis students, hosted a two-day technical conference and field trip, and held the SME Night at the Ballpark social outing at Target Field. Most notably, we collaborated with SME Minnesota and SME Northern Minnesota on a highly visible booth in the exhibition hall and cohosted a Friends of Minnesota reception at the SME National conference and exhibition in Minneapolis. It was a very busy year!

For our 2019 program year we will continue to expand awareness of the mining industry through our outreach activities and provide a number of opportunities to share knowledge and build our networks. We will be providing many opportunities for our sponsors to get engaged with leading companies that are working in the local and global mining sectors.

We thank our sponsors for their continued support and welcome inquiries from individuals and companies interested in participating with our local subsection in the future.

The annual sponsorship fee is \$300.

Please visit our website at www.smetwincities.org for more information and to pay for your sponsorship on-line with a credit card.
